

This is to certify that  
**Trinity Fire and Security**

Little bridge business park, Oil mill lane, Clyst st ma, Exeter, Ex51au, England

Has been assessed  
by Daniel Bencens for IT Governance Ltd  
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials

Scope: The infrastructure of Trinity Fire & Security consisting of firewalls, routers and end user devices located in all regions

Certification date: December 21st, 2016

Recommended re-assessment date: **December 20th, 2017**

Certificate no.: 5485729998685329

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
