FIRE & SECURITY SYSTEMS

Passionate about service

CASE STUDY intu Shopping & Leisure Centres

“ We are working closely with Trinity as we undertake transformational development and expansion programmes at our popular shopping and leisure destinations across the UK. They have been an important partner from the outset and clearly share our own passion for excellent customer service. **”**

PROJECT OVERVIEW

intu own some of the country's most popular shopping and leisure destinations. Trinity are very pleased to be associated with their current redevelopment and expansion programme, and have to date been involved with the delivery of many large fire and security systems.

With four centres completed since 2013 and with another three currently underway, Trinity is ensuring that intu is being provided with the sector-leading systems that they deserve.
