

An Alternative to Aspiration

The seminar discusses a number of solutions to issues faced in the use of high sensitivity smoke detectors for critical applications such as EDP areas, Internet data centres, Network operating centres and areas that typically have an increased fire risk due to high power requirement and density of equipment.

It will also provide details of alternative solutions to air sampling technology.

Finding time to keep up to date with the latest changes and developments in the fire safety industry can be challenging. In today's business environment it has become more important than ever to stay at the cutting edge.

NOTIFIER by Honeywell has developed a series of Continuing Professional Development accredited seminars addressing some of today's key topics in fire safety. These complimentary seminars can be arranged at a time and place to suit you.

NOTIFIER by Honeywell is the world's largest manufacturer and supplier of engineered fire alarm systems. With over 400 Engineered Systems Distributors worldwide, and regional support on every continent, we have the flexibility to meet our customers' most demanding requirements.
