

Designers' Guide to Fire Alarm Systems

This CPD is a designer's guide for fire alarm systems, covered within British Standard BS5839-1: 2017: Section 2 which is the Code of Practice for the design of fire detection and alarm systems within the UK and Northern Ireland.

It is aimed at providing any professional party involved in the designing of a fire alarm system with guidance on the choice and positioning of fire alarm equipment within a building.

Finding time to keep up to date with the latest changes and developments in the fire safety industry can be challenging. In today's business environment it has become more important than ever to stay at the cutting edge.

NOTIFIER by Honeywell has developed a series of Continuing Professional Development accredited seminars addressing some of today's key topics in fire safety. These complimentary seminars can be arranged at a time and place to suit you.

NOTIFIER by Honeywell is the world's largest manufacturer and supplier of engineered fire alarm systems. With over 400 Engineered Systems Distributors worldwide, and regional support on every continent, we have the flexibility to meet our customers' most demanding requirements.
