

CENTRAL BATTERY SYSTEMS – APPLICATION & DESIGN OF CENTRAL POWER SUPPLY SYSTEMS

Duration

1 hour

Who should attend

M&E Consultants, End Users, Architects or those involved in the process of providing or maintaining an automatic fire detection system

External Approval

CPD Service

This seminar is a guide providing information on designing emergency lighting central power supply systems, and explains the advantages and disadvantages of different types of batteries along with AC sine wave inverters and DC Systems. The CPD also provides information on the components, wiring and testing requirements that should be carried out in accordance to BSEN50171:2001.

Finding time to keep up to date with the latest changes and developments in the fire safety industry can be challenging. In today's business environment it has become more important than ever to stay at the cutting edge.

Notifier by Honeywell has developed a series of Continuing Professional Development accredited seminars addressing some of today's key topics in fire safety. These complimentary seminars can be arranged at a time and place to suit you.

Notifier by Honeywell is the world's largest manufacturer and supplier of engineered fire alarm systems. With over 400 Engineered Systems Distributors worldwide, and regional support on every continent, we have the flexibility to meet our customers' most demanding requirements.
