

UNDERSTANDING FIRE LEGISLATION

Duration

1 hour

Who should attend

Designers, installers and maintainers of fire detection and alarm systems

External Approval

CPD Service

This presentation reviews the current legislation paying particular attention to The Fire & Rescue Services Act 2004 and the Regulatory Reform (Fire Safety) Order implemented in October 2006. As most of the new legislation is based on a risk assessment rather than a prescriptive approach, this seminar includes a guideline on what a fire risk assessment entails and what government help is available in meeting this new requirement.

Finding time to keep up to date with the latest changes and developments in the fire safety industry can be challenging. In today's business environment it has become more important than ever to stay at the cutting edge.

Notifier by Honeywell has developed a series of Continuing Professional Development accredited seminars addressing some of today's key topics in fire safety. These complimentary seminars can be arranged at a time and place to suit you.

Notifier by Honeywell is the world's largest manufacturer and supplier of engineered fire alarm systems. With over 400 Engineered Systems Distributors worldwide, and regional support on every continent, we have the flexibility to meet our customers' most demanding requirements.
