

# OPTIMISING EARLY STAGE SMOKE DETECTION

## Duration

1 hour

## Who should attend

M&E Consultants, End Users, Architects or those involved in the process of providing or maintaining an automatic fire detection system

## External Approval

CPD Service

To provide a clear understanding of how early stage smoke detection can be optimised through advanced aspiration technology and 3D design tools. The presentation explains how new aerospace inspired technologies and advanced solution design can deliver enhanced, EN54-20 compliant early stage smoke detection in challenging environments with exceptional levels of accuracy and reliability.

Finding time to keep up to date with the latest changes and developments in the fire safety industry can be challenging. In today's business environment it has become more important than ever to stay at the cutting edge.

Notifier by Honeywell has developed a series of Continuing Professional Development accredited seminars addressing some of today's key topics in fire safety. These complimentary seminars can be arranged at a time and place to suit you.

Notifier by Honeywell is the world's largest manufacturer and supplier of engineered fire alarm systems. With over 400 Engineered Systems Distributors worldwide, and regional support on every continent, we have the flexibility to meet our customers' most demanding requirements.
