“ I am delighted to have worked with Trinity on the MOD Corsham project. I needed a company that I could totally rely upon and I know from previous experience that Trinity delivers highly polished services as standard. ”

Project Manager, Interserve. MOD Corsham

The MOD (Ministry of Defence) is one of the largest land owners in the UK, with 230,000 hectares of land reflecting circa 1% of the total UK estate.

The current UK Defence budget is expected to top £45 Billion and highlights the ongoing investment required to support the Armed Forces right across the UK, including the construction and ongoing maintenance of the MOD's buildings and residential facilities.

The unique working environments within MOD establishments dictate that fully Compliant Fire, Life Safety & Security systems are a fundamental requirement to ensure daily operations can be undertaken in an efficient manner.

FIRE & SECURITY SYSTEMS

TRINITY EXPERIENCE

Passionate about service

Trinity Fire & Security Systems has gained a wealth of experience within the Defence sector over a number of years.

The Corsham PFI Development project, with a build value circa £194M, is a prime example of the typical works undertaken by Trinity on behalf of the MOD.

Trinity completed the design, supply, installation, and commissioning of the 11-panel site wide networked Fire Alarm System and, in addition, a variety of Security Systems were also installed. Moving forward Trinity has also been chosen as the MOD's preferred partner for their Planned & Preventative Maintenance.

Trinity's high level of 'Customer Care' experience is delivered through a comprehensive network of regional offices located throughout the UK.
