# Why Trinity?

Since 1997 Trinity Fire & Security has been helping businesses ensure the safety of their people, properties and business operations.

Our customer support teams now operate from 12 regional offices across the UK, with annual revenues exceeding £50M.

At Trinity Fire & Security we pride ourselves on the quality of service and technical innovation delivered to our clients and we are passionate about developing bespoke and commercially competitive solutions, whereby Trinity becomes THE Integrator of choice for:

- **Fire Detection & Life Safety Systems**
- **Security Systems**
- **Service Support & Maintenance**
- **Compliance & Asset Management**

## Trinity's Compliance Platforms Offer:

- |                               |                                |
|-------------------------------|--------------------------------|
| • Expertise and Peace of Mind | • Total Compliance             |
| • Complete Asset Management   | • Bespoke Client Reports       |
| • Cloud Based Reports         | • Maintenance Audit Trail      |
| • Weekly Test Function        | • Real Time Event Notification |

Using our extensive knowledge of fire, life safety and security systems, we will design a tailored solution to meet your individual needs. We will source, supply and install products from our trusted partners, all of whom have been robustly evaluated. Moving forward we will provide a full customer aftercare service ranging from traditional maintenance through to ensuring full legislative compliance.

## Compliance & Asset Management

At Trinity Fire and Security, we fully understand the 'day to day' challenges that our customers face regarding their Compliance and Asset Management

Within Trinity team we employ a dedicated Compliance team who continuously review, innovate, and evolve our delivery methods to maintain the highest engineering standards so we become your trusted partner when you need us most!

Our industry leading compliance portal provides detailed asset management reporting, through to real time proof of testing via live web based portals, and we are able to offer each customer a bespoke and personal service to help achieve their unique requirements.

# National Service Hub

With dedicated teams specialising in all aspects of our industry, our **National Service Hub** ensures that we can provide:

- ① **Consistent National Service Delivery**
- ① **National Service Co-Ordination All Based In One Location**
- ① **Focused Contract Mobilisation**
- ① **Client Training & Demonstration Suite**
- ① **National Apprenticeship Training Facility**
- ① **Focused Customer Care**

## National Service Hub

# Trinity People

The backbone of Trinity's continued success are the dedicated team of technical Installation & Service Engineers, ably supported by our highly experienced Management, Sales, and National Customer Service team.

**IET** The Institution of  
Engineering and Technology

Trinity are extremely proud of our Apprenticeship Scheme, which is independently recognised by the IET.

The scheme is a fundamental part of Trinity's long term business strategy and 50+ Apprentices have already enrolled onto the scheme in recent years.

Moving forward the Apprenticeship scheme will continue to go from strength to strength via Trinity's new Apprentice training facility, located at the National Service Hub.

*“ I have now been working with Trinity for over 5 years. I know I can always expect high levels of service and expertise from the engineers, management and support team when they work with us. ”*

**Commercial Manager**

# Case Studies

*“ I was very pleased with the smooth delivery and performance of Trinity on this project, from the first initial meeting throughout the project to the final handover. ”*
